## ASHORE IN THE STORM

### Torpedo Boat Moccasin on the Beach at Curratuck

### Adder Towed Into Port by Peoria Crews of Both Boats Were Saved

Washington, Dec. 4.—Rear-Admiral Harrington, commanding at Norfolk, sent a cablegram to the navy department this morning that the submarine boat Moccasin is on the beach five miles south of Curratuck station. No lives were lost. The Yankton has gone there, and the weather is now moderating. Rear-Admiral Wise telegraphs from Hampton Roads that the Peoria has arrived with the Adder, and all of the crews were saved.

The life saving station at Curratuck this morning wires that the Moccasin is aground, but with nobody aboard. The boat is in good condition.

Norfolk, Dec. 4.—Investigation of the stranded vessel Moccasin today shows she did not ship a drop of water, and is completely intact, despite the terrific battering of the waves and being hurled high on the beach.

**Fear It Is Cancer.**  
Berlin, Dec. 4.—A report is published today that Princess Charlotte, the oldest sister of the Kaiser, is suffering from a cancerous tumor on the jaw. Apprehension regarding the Kaiser is intensified today by publication in the official newspaper, Preussische Correspondenz, that the Kaiser's condition is far from satisfactory. He cannot talk, whispers but a few words, and uses a slate for conversation. He looks aged.

## CHICAGO'S CAR-BARN BANDITS

### Police Discover a Hundred Pounds of Dynamite

### Think They Belong to a Big Gang, That Will Try to Set Them at Liberty

Chicago, Dec. 4.—A hundred pounds of dynamite, stored away by the car-barn bandits, was found in a house in the northwestern part of the city this morning by the police, after a search lasting several days. The police are now convinced that the four arrested have accomplices still at large, who may attempt to liberate their comrades. Twenty hold ups within the past few days, and the murder of Lawyer Fullerweiler are attributed to the gang, who are believed to be making desperate efforts in behalf of the prisoners. All efforts to sweat information from the latter are unavailing. The police dragnet was out last night in the district where the bandits formerly loitered, and it resulted in 40 arrests. The guard over Neidermeyer this morning informed the chief that Neidermeyer had offered him \$25,000 cash for his liberation. He did not say where he would get the money, but assured the guard that it would be handed to him the minute he stood outside the prison walls. On hearing this, and discovering the dynamite, the officers arrived at a firm conclusion the prisoners are merely part of a big organized gang of desperadoes, and have again doubled the guard, both inside and outside of the prison where the criminals are confined. They are now kept in separate cells, and widely separated from each other.

**Union Guilty of Contempt.**  
Chicago, Dec. 4.—Judge Seldon today decided that the union of press feeders was guilty of violating an injunction issued by the court to prevent violence in the recent strike, not as individuals, but as an organization. He will tomorrow determine the amount of fine which is to be imposed on the president and secretary of the local Franklin union. The minimum is \$1.00, the maximum \$5000. The decision is considered important by the union men.

**The Canal Saved Them.**  
Schenectady, N. Y., Dec. 4.—Owing to an accident, the city has been without water the past 24 hours. A fire this morning totally destroyed the New York Central freight warehouse and 75 cars with their freight. The loss is \$200,000, and a general conflagration was averted only because the freight house was on the bank of the canal, from which the engines pumped water.

Leavenworth, Kan., Dec. 4.—Judge Kilpatrick today received a cablegram from General Wilde, in the Philippines, regarding Mrs. Concepcion Vasquez, and thereupon granted her an extension of time to answer in the divorce suit brought by Lieutenant Burbank. The latter calculated on getting a divorce by default, as Mrs. Vasquez could not possibly answer within the 50 days' limit, provided by the statute.

## Dressy Overcoats

Between the extremes of style in overcoats comes this "Regular" style; its called that, we suppose, because wearers never tire of it.

You see how Hart, Schaffner & Marx make it; very dressy, and just as stylish as the long, loose-backed shapes, or the form fitting kind.

You can't make an overcoat mistake here; there isn't a wrong one in the store; and there are a good many right ones. Better pay an H. S. & M. price, and get your full money's worth.
